

Please join us for RIDE's

**McKinney Vento Education for Homeless Children and Youth
(EHCY) Annual Training
Thursday October 17, 2024**

RIDE is offering two sessions to accommodate school staff's ability to participate; each session is designed to provide general information about the EHCY program and then offer specific strategies and supports for either elementary or secondary school staff.

Each session is designed for LEA homeless liaisons AND for school level staff (principals, social workers, transportation staff and registration staff/school secretaries) to learn the requirements of the EHCY program and to learn strategies for the identification and enrollment of homeless students which is best achieved through collaboration with members of the whole school team.

An overview of the McKinney Vento EHCY program and its requirements will be followed by guidance for LEAs on creating, reviewing, and updating their LEA McKinney Vento Homeless Education policy for handling MV situations and using written processes for conducting the program and providing evidence of meeting these requirements.

TWO SESSIONS WILL BE OFFERED:

- The **morning session** (9:00 AM- 10:30 AM) is designed for the LEA homeless liaison and **secondary school staff**.
- The **afternoon session** (1:00 PM - 2:30 PM) is designed for the LEA homeless liaison and **elementary school staff**.

How to register:

Please [register via eRIDE](#) **by October 14, 2024**

IMPORTANT NOTE –

RIDE is using the LEA's homeless liaison's attendance at webinars and technical assistance sessions as part of its risk analysis for future LEA McKinney Vento program monitoring selection.

LEAs are strongly encouraged to participate in this webinar.
