

# Expanding Reading Instruction With Multilingual Learners

## Description

This virtually facilitated workshop provides ideas for expanding reading instruction to make it more effective for multilingual learners. Participants will learn ways to build on and expand current approaches to teaching reading and to engage multilingual learners in the interactions that support reading development.

## Audience

This virtual workshop is designed for any educator interested in supporting reading for multilingual learners.

## Learning Outcomes

Participants will

- Name important qualities of expansive reading instruction for multilingual learners
- Identify key information about how reading develops for multilingual learners
- Identify one way to shift reading instruction to be more expansive and inclusive for multilingual learners
